

“Mutual Endorsements”

It is the opinion of the Election Supervisory Board that the previous Advisory Opinion regarding “Non Candidate Campaigning” applies to the matter of “Student Government representatives-elect” campaigning for remaining candidates, seeing as they are no longer under the purview of the Board but of the Student Government Judicial Court once elected.

Furthermore, in light of recent assertions, there is no basis for which any action of the like could be regulated. Therefore, all campaigning in respect to mutual associations of any caliber are completely permissible to both candidates and non-candidates alike.
